Ant's best friend is a fish called Jeffrey. Can you spot him on the page?

finding out

Grown-ups:
What creatures does your child think live underwater? Can they draw a shark, a whale, or even make up their own deep-sea creature?

WILLIAM & Kaiko

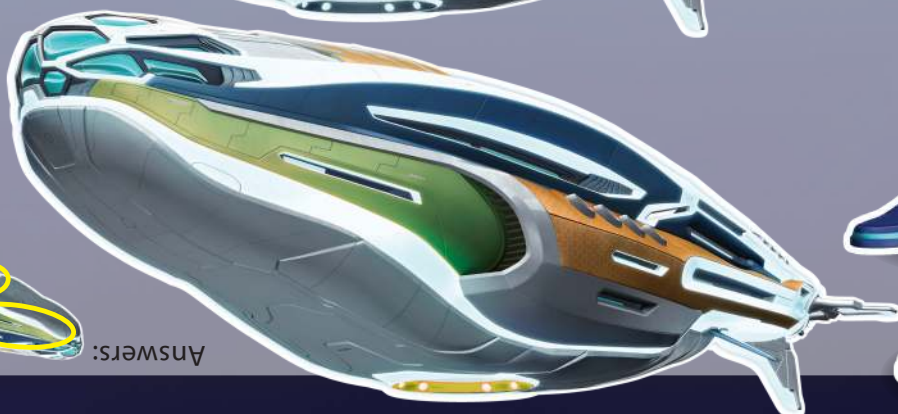

Meet Ant and Fontaine's parents! William is happiest studying books or maps, whilst Kaiko pilots the Aronnax - the Nektons' underwater home.

Can you spot 3 differences between the Aronnax pictures?

Incredible!

Now try this!

Design an underwater gadget to help the Nektons explore. It could be super fast or strong. What will you call it?

Great Job!
